

# SOCIAL ENTERPRISE SCHOOLS LEARNING JOURNEY

The journey begins with Teacher training

What is a Social Enterprise?

How will students lead and collaborate?

What Would you like to change?

What ideas do students have for an enterprise?

Have we recognised and celebrated our journey?

Social Enterprises are businesses that trade to intentionally tackle social problems and improve communities. As part of the **Social Enterprise Schools** program, students are asked what positive difference they would like to make in the world. They then design, develop and launch a business and begin to trade to the community. All of their profits go to their chosen cause.

Social Enterprise Schools is a practical, student-led experience that develops community engagement and business capabilities. It brings students, teachers, social entrepreneurs and the community together to develop skills, build confidence and make a positive social impact. Following an engaging 10-stage learning journey, students develop the skills, mindsets and behavior's they will need as they move beyond the school gates.

Contact Polly Britten [engagement@highlandslen.org](mailto:engagement@highlandslen.org) or 0400 564 839 with your EOI by Friday 25 February, 2022
