

HLEN EVENTS

- MINE SITE SURFACE TOURS

Have you ever panned for gold?
Want to see how gold and minerals are found today?

Join us on a tour of a real operating mine site. Hear from multiple career representatives, watch where gold is processed, and how they service those HUGE vehicles.

More than 100 careers are available across the mining industry.

Spaces are limited to two schools per term, so get in quick.

Duration: Half day program

Numbers: Maximum 20 students

Location: Ballarat Gold Mine or equivalent

Transport: Provided if needed

Risk: Induction & PPE provided

Must have: Enclosed shoes, long sleeve shirts and trousers

Lunch: Bring your own

Cost: Free of charge to students and schools

When: Contact Polly with your proposed date/s.

Environment: Mine rehabilitation, conservation and heritage protection is considered at every stage of a mine's life.

Extraction & Processing: Pathways into high paid, high skilled mining careers have never been more varied and accessible.

Business: Underpinning every successful mining operation is a team of business, finance and legal professionals.

Planning: An identified mineral resource informs the planning, development and construction of a mining operation.

Community Engagement: Earning and maintaining the trust of communities requires respectful and transparent engagement and enduring community benefits.

Technology: From mechatronics to artificial intelligence, mining is undergoing a digital transformation.

Exploration: Critical to drive the next wave of mining investment, jobs and tax revenue.
